**SECTION 4: EMPLOYER CERTIFICATION**

I declare and affirm under penalty of perjury that the statements and information made herein are true and correct to the best of my knowledge, information and belief. I understand that the law provides severe penalties for knowingly and willfully falsifying or concealing a material fact, or using any false document in the submission of this form.

I certify on behalf of the employer that this Training Plan for STEM OPT Students ("Plan") is approved and that:

1. I have reviewed and understand this Plan, and I will ensure that the supervising Official follows this Plan;
2. I will notify the DSO at the earliest available opportunity regarding any material changes to this Plan, including but not limited to, any change of Employer Identification Number resulting from a corporate restructuring, any reduction in compensation from the amount previously submitted on the Plan that is not tied to a reduction in hours worked, any significant decrease in hours per week that a student engages in a STEM training opportunity, and any decrease in hours below the 20-hours-per-week minimum required under this rule;
3. Within five business days of the termination or departure of the student during the authorized period of OPT, I will report such termination or departure to the DSO (*Note: business days do not include federal holidays or weekend days; and an employer shall consider a student to have departed when the employer knows the student has left the practical training opportunity, or when the student has not reported for practical training for a period of five consecutive business days without the consent of the employer*); and
4. I will adhere to all applicable regulatory provisions that govern this program (*see 8 CFR Part 214*), which include, but are not limited to, the following:
  - a. The student's practical training opportunity is directly related to the STEM degree that qualifies the student for the STEM OPT extension, and the position offered to the student achieves the objectives of his or her participation in this training program;
  - b. The student will receive on-site supervision and training, consistent with this Plan, by experienced and knowledgeable staff;
  - c. The employer has sufficient resources and personnel to provide the specified training program set forth in this Plan, and the employer is prepared to implement that program, including at the location(s) identified in this Plan;
  - d. The student on a STEM OPT extension will not replace a full- or part-time, temporary or permanent U.S. worker. The terms and conditions of the STEM practical training opportunity—including duties, hours, and compensation—are commensurate with the terms and conditions applicable to the employer's similarly situated U.S. workers or, if the employer does not employ and has not recently employed more than two similarly situated U.S. workers in the area of employment, the terms and conditions of other similarly situated U.S. workers in the area of employment; and
  - e. The training conducted pursuant to this Plan complies with all applicable Federal and State requirements relating to employment.

**Note: DHS may, at its discretion, conduct a site visit of the employer to ensure that program requirements are being met, including that the employer possesses and maintains the ability and resources to provide structured and guided work-based learning experiences consistent with this Plan.**

**Note: for the remaining fields in this section, employers who already have an internal/pre-existing training plan in place may fill in the details based on that plan.**

**Student Role:** Describe the student's role with the employer and how that role is directly related to enhancing the student's knowledge obtained through his or her qualifying STEM degree.

The student is employed as a System Analyst at Promantus Inc. In this role, he will perform the following hands on software development duties on a startup team: 1) Work with technical members to deliver on the product vision 2) Develop key backend components and ensure quality of software 3) Document and communicate with technical and non technical audiences 4) Ensure scalability of the platform with sound design principles. His MS degree in Computer Science is directly related to his role of system analyst in that translating product vision, backend development, and platform scalability involve practical application of the theoretical concepts from computer science via data structures, databasing, and translating requirements.

**Goals and Objectives:** Describe how the assignment(s) with the employer will help the student achieve his or her specific objectives for work-based learning related to his or her STEM degree. The description must both specify the student's goals regarding specific knowledge, skills, or techniques as well as the means by which they will be achieved.

The following goals have been identified for the F-1 student: 1) Redesign entire app backend for optimized performance and scalability. 2) Translate non technical feedback into technical solutions. 3) Integrate backend, frontend and newly developed matching algorithm through close collaboration with technical team. The student will be included in non technical design meetings to communicate with team and translate for technical development. He will work closely with experienced members of the team and be provided resources for additional online, personalized development.

**Employer Oversight:** Explain how the employer provides oversight and supervision of individuals filling positions such as that being filled by the named F-1 student. If the employer has a training program or related policy in place that controls such oversight and supervision, please describe.

The F-1 student's work will be guided by the project manager daily in a general yet directional capacity. Quality of work will be reviewed and assessed by technical and non technical team members by testing app functions. Training resources are provided through online resources and in person events such as conferences or short courses. Other technical employees outside of the app development team are available for mentorship as requested or sought out by the student.

**Measures and Assessments:** Explain how the employer measures and confirms whether individuals filling positions such as that being filled by the named F-1 student are acquiring new knowledge and skills. If the employer has a training program or related policy in place that controls such measures and assessments, please describe.

Assessments are both ongoing and weekly to determine daily functionality of the app's backend effectiveness and progress made on backend redesign, along with other longer term projects. Timelines will be reviewed monthly with the student and integrations and bug fixes will be easily identified if and when they present themselves. Active participation in technical and non technical meetings will be required and ability to translate ideas into workable solutions will be evaluated on a consistent basis.

**Additional Remarks (optional):** Provide additional information pertinent to the Plan.

The student will also be given key leadership roles on several of the ongoing and upcoming projects, which are vital to the team's success.

#### SECTION 6: EMPLOYER OFFICIAL CERTIFICATION

I declare and affirm under penalty of perjury that the statements and information made herein are true and correct to the best of my knowledge, information and belief. I understand that the law provides severe penalties for knowingly and willfully falsifying or concealing a material fact, or using any false document in the submission of this form.

**Employer Official with Signatory Authority** - I certify that:

1. I have reviewed, understand, and will follow this Training Plan for STEM OPT Students (Plan);
2. I will conduct the required periodic evaluations of the student;\*
3. I will adhere to all applicable regulatory provisions that govern this program (*see 8 CFR Part 214.2(f)(10)(ii)*); and
4. I will notify the DSO regarding any material changes to or material deviations from this Plan at the earliest available opportunity, including if I believe the student is not receiving appropriate training as delineated in this Plan.
